

Our Philosophy

Inchin's Bamboo Garden was started with a simple idea - to provide a unique dining experience that brings back memories of far away lands... The cuisine is an artful blend of exotic ingredients and finds it's influence from the Chinese province of Szechwan and the eclectic flavors of India.

Our chefs are trained to prepare the food from scratch so that every order is made fresh and has it's own distinct taste. This is a hallmark of this restaurant and something we take pride in. We hope you understand that in order to maintain these high standards that our patrons demand, your order might take slightly longer than you may be accustomed to.

Please do not hesitate to ask if there is anything we can do to make your meal more enjoyable!
